

I'm a senior and I tested positive via Antigen Rapid Test (ART)

	You are aged 60 and above	What to do
A	Feeling well and fully vaccinated	 Isolate at home. Take an ART after 72 hours <ul style="list-style-type: none">• End isolation when result is negative• If still positive, repeat the ART at least one day apart until it is negative Continue to reduce social interactions to stay safe If you develop symptoms, see C
B	Feeling well but partially/unvaccinated	 See a doctor, even if you have no symptoms
C	Feeling unwell (e.g. fever, cough, sore throat)	 See a doctor even if vaccinated . Call 995 if you feel chest pain or breathlessness
