

# KEEPING OUR BUILD-TO-ORDER (BTO) PROGRAMME ON TRACK

TO ENSURE TIMELY DELIVERY OF HDB FLATS TO SINGAPOREANS.

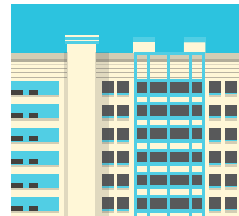

## MANAGING BTO DELAYS

- Delays for most BTO projects caused by COVID-19 disruptions have remained between

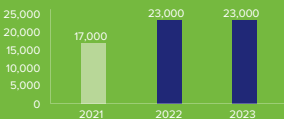

**6 to 12 months.**

- Over the past year, the proportion of BTO projects delayed by six months or more has been reduced by more than 20% and continues to improve.

## RAMPING UP BTO SUPPLY

- HDB will supply **up to 23,000 flats** each year in 2022 and 2023, compared to 17,000 flats launched in 2021.

- Up to **100,000 flats** can be launched from 2021 to 2025, if needed.

## SECURING A BTO FLAT

- Virtually all first-timer** families applying for BTO flats in **non-mature estates** have been successful within their **first three tries**. In fact, **9 in 10** have been successful within **two tries**.
- Every year, HDB continues to launch projects with shorter waiting time of **less than 3 years**.
- In 2021, more than **35% of BTO projects** with 3-room or larger flats on offer have first-timer family **application rates of 1.7 or less**, which means these applicants have a good chance of being invited to select their BTO flats.

We will spare no effort to minimise BTO delays and continue to **deliver new HDB flats** to Singaporeans.
